

2/9/22:

This screenshot shows a Kanban board for the project '@computer-lov's Nighttime-Parenting-Device'. The board is organized into five columns: Pending (5 items), Todo (5 items), In Progress (5 items), Review (3 items), and Done (2 items). Each item is a card representing a task, with a title, a description, and a status icon. The 'Pending' column contains tasks like 'Confirm current consumption of heart rate sensor' and 'Update schematic parts'. The 'Todo' column includes 'Check part "liveness"' and 'Fill in Stub Functions for OLED Screen'. The 'In Progress' column shows tasks such as 'Write Background of the report' and 'Write setup.py'. The 'Review' column has 'Put a basic project description in the README' and 'Confirm current consumption of system'. The 'Done' column includes 'Set up repository on Github' and 'Set up Project'. The board also features a search bar, a filter dropdown, and a 'Give feedback' button.

2/16/22:

This screenshot shows the same Kanban board for '@computer-lov's Nighttime-Parenting-Device' on a later date. The board structure remains the same, but the tasks have been updated. The 'Pending' column now includes 'Review design with respect to basic UX principles' and 'Check part "liveness" for LED Bar'. The 'Todo' column has 'Fill in Stub Functions for OLED Screen' and 'Confirm current consumption of heart rate sensor'. The 'In Progress' column shows 'Write stub functions and classes for each of the parts' and 'Write demo.py'. The 'Review' column includes 'Write Background of the report' and 'Write Parts section of report'. The 'Done' column has 'Set up Project' and 'Fill in stub functions'. The board also features a search bar, a filter dropdown, and a 'Give feedback' button.
